EXECUTIVE SUMMARY

Brief Description of Business

Tech Outfitters LLC is a husband-and-wife digital services company providing small businesses with fast, affordable, and technically sound websites, digital content, and branding. Using a proprietary “one-click prototype” system, we generate instant website previews for local businesses and deliver them via postcard, walk-in visits, or email. This allows clients to see value immediately and launch a professional website within minutes. Our mission is to help small businesses modernize their online presence with secure, accurate, and easy-to-maintain digital solutions.

Competitive Advantage

- **Instant website previews** delivered through QR-coded postcards
- **Subscription-based pricing** with low upfront cost
- **Local, personal service** from experienced professionals
- **Automated content generation** paired with human review
- **Fast turnaround** (same-day launch available)
- **Performance-aligned pricing options** (lead credits, pay-per-lead)

BUSINESS DESCRIPTION

Background

After years in corporate healthcare tech, James and Erin saw firsthand how many small businesses struggle with outdated websites, inconsistent online listings, and expensive digital agencies. They wanted to build a business that uses their combined strengths — James’s engineering background and Erin’s project leadership — to help local businesses modernize quickly and affordably. Tech Outfitters was created to give small businesses a simple, fast, and trustworthy way to get online without the complexity or cost of traditional agencies.

Products and Services

- Instant website prototypes delivered via QR-coded postcards
- Website design & development
- Logo creation and digital branding
- Google Business Profile setup & optimization
- Monthly website maintenance
- SEO updates
- Content updates
- Performance-based lead generation options
- Hourly enhancement services (\$75/hr)

Location and Hours

Home-based business located in Otsego, MN.

Hours of operation: Monday–Friday, 9 AM–5 PM, with flexible availability for client meetings.

Experience and Education

James Caldwell — Software engineer with experience in .NET Core, MongoDB, SQL, C#, React/TypeScript, GraphQL, Redis, Azure, and AI-powered development. Former camp counselor and children’s ministry pastor with strong communication skills.

Erin Caldwell — Capability manager with 20 years of experience leading projects from concept to completion. Skilled in operations, project management, client communication, and delivery oversight.

Business Development

We will grow revenue through:

- Walk-in postcard delivery to local businesses
- Direct mail campaigns
- Email outreach with preview links
- Referrals from satisfied clients
- Partnerships with local chambers, gyms, salons, contractors, and small service businesses
- Offering subscription plans that encourage long-term relationships

Risk Management

- **Low conversion rates** → Mitigation: A/B test postcards, improve preview quality, refine messaging.
- **Scope creep** → Mitigation: Clear tiered packages, written change orders, hourly enhancement pricing.
- **Technical issues or downtime** → Mitigation: Managed hosting, automated backups, monitoring, and SLAs.

GOALS

Ensure that goals are S.M.A.R.T – specific, measurable, achievable, realistic, and timed

Start-up Goals (prior to start-up)

- Build 3 website templates and the preview generation system.
- Create and print 30 QR-coded postcards.
- Complete LLC formation, banking, insurance, and accounting setup.

Short-term Goals (less than one year)

- **Revenue:** \$24,000 in first 12 months. (What is some reasonable goal for revenue and how do we structure something to pay ourselves)
- **Profitability:** Achieve 30% net profit margin by month 12.
- **Marketing:** Deliver 30 postcards (10 mail, 10 walk-in, 10 email) and convert at least 6 paying clients.
- **Expansion:** Launch Growth and Performance subscription tiers.

Long-term Goals (More than one year)

- **Revenue:** \$60,000–\$90,000 annually.

- **Profitability:** Maintain 40% net profit margin.
- **Marketing:** Expand postcard outreach to 200 businesses annually.
- **Expansion:** Hire first contractor or part-time developer; add additional templates and services.

CUSTOMER

Demographics

Small local businesses including gyms, salons, contractors, auto shops, restaurants, medical offices, and solo service providers. Typically 1–20 employees, located within 30 miles of Otsego/Monticello MN.

Psychographics

Customers value reliability, affordability, simplicity, and fast turnaround. They often lack time or technical expertise and want a trustworthy partner who can “just handle it.”

Geographic Area

Primary service area: Monticello, Otsego, Elk River, Rogers, Big Lake, and surrounding communities. This could expand to the Twin Cities/St Cloud areas.

Potential Customer Base

Need to figure out how to find these to give a rough number. Copilot estimates around 3,000 businesses in the primary service area that have “walk in” potential.

Value Proposition

“We build your website before you even hire us. Scan your postcard to see your live preview — and launch it today.”

INDUSTRY CHARACTERISTICS AND TRENDS

The web design industry is shifting toward subscription-based models, fast deployment, and AI-assisted content creation. Small businesses increasingly prefer predictable monthly costs over large upfront fees. Local service businesses especially need accurate online listings, mobile-friendly websites, and quick updates. The outlook is strong as more small businesses modernize their digital presence.
